First Steps

Sai Prashanth Chandramouli

February 24, 2016

Contents

1 First Section

This is the first section of my doc.
Double slashes are newlines

1.1 Sub Section

Lets create a nice subsection here

2 Second Section

This is the second section of my doc.
White space is like rendered as in html, in
other words, ignored.

Hey This is a short paragraph that is automatically justified and hyphenated by LaTeX for us :) Isn't that simply wonderful?? We don't even have to worry about how the page looks cause that is LaTeX's work to do!! Today's date can also be generated in a similar way, just insert backslash followed by 'today', and it will display the date. Be sure to check whether today is February 24, 2016.

T his para is for showing dots: ... and ellipsis ...

This is for *emphasis*. *But if you are emphasizing something inside an* emphasis*, it changes to normal*

1. Sai Pc

   - Is awesome
   - Is cute
   - Is brainy

2. Annnnnnd

This text is left aligned

<div align="right">This text is right aligned</div>

<div align="center">This text is centered</div>

This is a verse:

This is going to be,
Useful for my poems

```
This is like the pre tag in html
you can have \ldots and other such stuff, and itll print normally
including newlines etc
```

Abstract

This is an abstract with default styles applied :)
